Publication Information

This Full Issue is brought to you for free and open access by the Agricultural Experiment Station at Wyoming Scholars Repository. It has been accepted for inclusion in Wyoming Agricultural Experiment Station Bulletins by an authorized administrator of Wyoming Scholars Repository. For more information, please contact scholcom@uwyo.edu.
UNIVERSITY OF WYOMING
Agricultural College Department

Wyoming Experiment Station
Laramie, Wyoming.

INDEX BULLETIN C
JULY, 1902

Indexing Bulletins Thirty-Eight to Fifty-Three
SEPTEMBER, 1898—JUNE, 1902

BY THE SECRETARY.

Bulletins will be sent free upon request.
Address: Director Experiment Station, Laramie, Wyoming.
Wyoming Agricultural Experiment Station

University of Wyoming.

BOARD OF TRUSTEES.
Hon. OTTO GRAMM, President, Laramie 1903
Hon. GRACE RAYMOND HEBARD, B. S., Ph. D., Secretary, Cheyenne 1903
Hon. HENRY L. STEVENS, M. D., Laramie 1903
Hon. TIMOTHY F. BURKE, LL. B., Vice President, Cheyenne 1907
Hon. JOHN C. DAVIS, Treasurer, Rawlins 1907
Hon. MORTIMER JESURUN, M. D., Douglas 1907
Hon. ARTHUR C. JONES, Laramie 1903
Hon. JOHN A. BECKWITH, Evanston 1905
Hon. S. CONANT PARKS, Ph. D., Lander 1905
State Superintendent of Public Instruction T. T. TYNAN Ex-officio
President ELMER E. SMILEY, A. M., D. D. Ex-officio

Agricultural Committee of the Board of Trustees.
H. L. STEVENS, Chairman Laramie
OTTO GRAMM Laramie
A. C. JONES Laramie

President of the University of Wyoming,
ELMER E. EMILEY, A. M., D. D.

STATION COUNCIL.
E. E. SMILEY, A. M., D. D. Director*
F. E. EMMERY, M. S. Vice Director, Agriculturist and Horticulturist
A. NELSON, M. S., A. M. Botanist
E. E. SLOSSON, M. S. Chemist
W. C. KNIGHT, A. M., Ph. D. Geologist
C. B. RIDGAY, A. M. Physicist and Meterologist
G. R. HEBARD, A. M., Ph. D. Secretary
BURTON P. FLEMING, B. S. Irrigation Engineer
ELIAS E. NELSON, A. M. Assistant Horticulturist
E. E. SIGMAN Foreman Experiment Farm

*Prof. B. C. Buffum director after September 1st, 1902.
†Resigned July 1st, 1902.
Wyoming Experiment Station.

THIRD ANNUAL REPORT, 1893.
Progress of Station Work, with Bulletins Nos. 11 to 16. A. A. Johnson, Director.

*Bulletin No. 18—June, 1894. I. Reclamation of Arid Lands. II. The Harvey Water Motor. A. A. Johnson, Director.

Bulletin No. 19—September, 1894. Squirrel-Tail Grass (Fox-Tail); One of the Stock Pests of Wyoming. Aven Nelson, Botanist.

FOURTH ANNUAL REPORT, 1894.
Reports from the Departments, and Bulletins Nos. 17 to 20. A. A. Johnson, Director.

FIFTH ANNUAL REPORT, 1895.
Including Bulletins Nos. 22 to 26, inclusive; also, three Press Bulletins:
Bulletin No. 27—March, 1896. Meteorology for 1895, and Notes on Climate from 1891 to 1896. J. D. Conley, Meteorologist.

SIXTH ANNUAL REPORT, 1896.
Reports from Departments. Bulletins Nos. 27 to 31, inclusive. Index Bulletin A of the First Twenty-six Bulletins, by Secretary.

SEVENTH ANNUAL REPORT, 1897.

EIGHTH ANNUAL REPORT, 1898.
General Outline of Work and Reports from Members of Station Staff, Including Bulletins Nos. 34 to 37, inclusive.

NINTH ANNUAL REPORT, 1899.
General Outline of the Work of the Agricultural College, with Departmental Statements. E. E. Smiley, President.
Report of the Director of the Experiment Station and of the Members of the Station Staff.
NINTH ANNUAL REPORT, 1899 (Continued).

Alkali Studies, III. B. C. Buffum, Agriculturist and Horticulturist.
Alkali Studies, IV. E. E. Slosson, Chemist.
Bulletins Nos. 38 to 40, inclusive, and Index Bulletin B of Bulletins Nos. 27 to 37, inclusive. G. R. Hebard, Secretary.

Bulletin No. 44—April, 1900. Alfalfa as a Fertilizer. B. C. Buffum, Agriculturist and Horticulturist.

TENTH ANNUAL REPORT, 1900.

General Outline of the Work of the Agricultural College, with Departmental Statements. E. E. Smiley, President.

Report of the Director of the Experiment Station and of the Members of the Station Staff.

Alkali Studies, V. B. C. Buffum, Agriculturist and Horticulturist, and E. E. Slosson, Chemist.

Distribution of Alkali in the Soil of the Experiment Farm. E. E. Slosson, Chemist.

Water Measurement. B. C. Buffum, Agriculturist and Horticulturist.

Germination of Wheat and Oats Treated for Smut.

Forage Plants. B. C. Buffum, Agriculturist and Horticulturist, and W. H. Fairfield, Superintendent of Experiment Farm.

Variety Tests of Wheat, Oats and Barley. B. C. Buffum, Agriculturist and Horticulturist, and W. H. Fairfield, Superintendent of Experiment Farm.

Bulletins Nos. 41 to 45, inclusive.

Bulletin No. 47—April, 1901. Lamb Feeding Experiment. Luther Foster, Agriculturist and Horticulturist.

Press Bulletin No. 2 (New Series)—May, 1901. Results of Lamb Feeding at the Wyoming Station. Luther Foster, Agriculturist and Horticulturist.

ELEVENTH ANNUAL REPORT, 1901.

Report of the Director of the Experiment Station and of the Members of the Station Staff.

Press Bulletin No. 5—1902. What is a Maintenance Ration for a Horse? F. E. Emery, Agriculturist and Horticulturist.

Press Bulletin No. 6—1902. The Effect of Different Amounts of Water Used in Irrigation upon the Yield of Potatoes. B. P. Fleming, Irrigation Engineer.

Bulletin No. 52—April, 1902. Experiment in Evaporation. C. B. Ridgaway, Physicist and Meteorologist.

TWELFTH ANNUAL REPORT, 1902.

Report of the Director of the Experiment Station, including Press Bulletins Nos. 1 to 11 (New Series), inclusive, and Reports of the Members of the Station Staff.

Annual Reports 1 to 5 are out of print, also all Press Bulletins.

*Out of print.
MONOGRAPHS

Issued From Time to Time by the Experiment Station.

Alkali in Soil at Experiment Farm, *A. R. 10.
Barley, A. R. 10.
Forage Plants, A. R. 10.
Germination of Wheats and Oats Treated for Smut, A. R. 10.
Oats, A. R. 10.

*Annual Report.

Index Bulletin A, indexing bulletins 1 to 26.
Index Bulletin B, indexing bulletins 27 to 37.
Index Bulletin C, indexing bulletins 38 to 53.
Press Bulletins 1 to 10.

PRESS BULLETINS

(All out of print.)

Alfalfa for Milch Cows, 9, A. R. 12.
Chickens, 8, A. R. 12.
Co-operative Sugar Beet Tests, 5.
Feeding Value of Wheat, 1, A. R. 12.
Horse Maintenance Ration, 5, 10, A. R. 12.
Irrigation of Potatoes, 6, A. R. 12.
Lamb Feeding, 2, A. R. 12.

Range Improvement, 7, A. R. 12.
Russian Thistle, **1, A. R. 5.
Sacaline, **3, A. R. 5.
Seed Distribution, **2, A. R. 5.
Sugar Beet Tests, **5, A. R. 7.
Turkeys, 4, A. R. 12.
Water Amounts Used in the Irrigation of Potatoes, 6, A. R. 12.
Wheat Bran for Milch Cows, 9, A. R. 12.
Wheat, Feeding Value of, 1, A. R. 12.

*Annual Report.

**Old Series.
ALPHABETICAL LIST OF BULLETINS

Issued by the Wyoming Agricultural Experiment Station, Laramie, Wyoming.

Alfalfa, 43, 44.
Alkali, 29, 39, 49.
Analysis of Soils, 6.
Arid Lands, 18.
Artesian Wells, 20, 45.
Breeds for Wyoming, 5.
Brome-Grasses, 46.
Cattle, 13, 30.
Cereals, 22, 27.
Cereal Foods, 33.
Chemistry of Soils, 6.
Climate, 23.
Crops, 11, 17, 22.
Cultivated Shade and Forest Trees, 38.
Duty of Water, 8.
Evaporation, 52.
Feed and Management of Cattle, 13.
Flora of Wyoming, 28.
Forage Plants, 16, 22, 42.
Fox Tail, 19.
Fruits, 22, 34.
Garden Vegetables, 17.
Geology of Wyoming, 6, 14.
Gophers, 12.
Grasses and Forage Plants, 16, 22.
Ground Squirrels, 12.
Harvey Water Motor, 18.
Insecticides, 7.
Irrigation, 8, 53.
Lamb Feeding, 47, 51.
Measurement of Water for Irrigation, 53.

Meteorology, 4, 10, 17, 27.
Mineral Resources of Wyoming, 14.
Native Forage Plants for Alkali Soils, 42.
Native Vines in Wyoming Homes, 50.
Onions, 22.
Organization, 1.
Peas, 26.
Plant Lice, 2.
Potatoes, 22, 32.
Potato Scab, 21.
Reclamation of Arid Lands, 18.
Shade Trees, 38.
Sheep-Feeding, 30, 47, 51.
Shrubs, 15.
Smuts on Grain, 21.
Soils of Wyoming, 6.
Squirrel-Tail Grass, 19.
Stock Feeding, 13, 30, 47, 51.
Stooling of Grains, 37.
Subsoiling, 41.
Sugar Beet, 3, 9, 17, 36.
Trees, 15, 38, 40.
Turnips, 22.
Vegetables, 17.
Vines, 50.
Water Analysis, 24, 35.
Wheat, 17, 22, 25, 48.
Winter-Killing of Trees and Shrubs, 15.
The titles of bulletins are printed in black capital letters. The bulletin numbers appear in black type, larger than the ordinary type in which page numbers are set.

Abies 40:84.
Acarina, 12th An. Rpt., 1902, 42.
   Negundo 38:18.
   saccharinum 38:18.
Alder 40:98.
   Paperleaf 40:98.
   Alfalfa—
   amount of hay consumed by horses in feeding trials at Experiment Farm, 12th An. Rpt., 1902, 29.

Alfalfa (Continued)—
   amount of water lost in curing 43:60.
   as a fertilizer on the Laramie plains 44:98.
   as an improver of the physical condition of soils 44:97.
   at altitudes below 6,000 ft. 43:66.
   at Laramie Experiment Farm, 10th An. Rpt., 1900, Forage Plants, 5.
   bloating of cattle and sheep on, 43:61.
   culture of 43:50.
   amount of seed to sow 43:56.
   at altitudes above 7,000 ft. 43:48.
   at altitudes below 6,000 ft. 43:47.
   how to cure 43:59.
   kind of soil 43:51.
   preparation of the land 43:52.
   seeding on manured land 43:54.
   sowing with or without nurse-crop 43:57.
   when and how to sow the seed 43:54.
   when to cut 43:59.
   duty of water on 43:77, 80.
   enemies of 43:81.
   experience of Mr. Thos. Bird with 43:87.
   experience of Mr. C. W. Webber with 43:86.
Alfalfa (Continued)—

experience of ranchmen on the Laramie plains with 43: 83.
experience with at the Laramie Experiment Farm 43: 48.
irrigation of 43: 76.
on alkali soils 43: 74.
pasturing of 43: 62.
planting of on land infested with weeds 44: 97.
relation of to the nitrogen problem 44: 96.
results with the Turkestan variety at Laramie 43: 71.
rotations with 44: 97.
tolerance of alkali 43: 75.
Turkestan variety 43: 70.
winter killing of 43: 73.
yield of—
at Lander 43: 67.
at Laramie 43: 63.
at Sheridan 43: 67.
at Wheatland 43: 68.

ALFALFA AS A FERTILIZER 44.

ALFALFA AS A HAY CROP 43.

Alkali—

absorption of water from salt solutions by beans 39: 43.
living and dead seeds 39: 43.
seeds 39: 41.
amount of water absorbed by wheat from salt solutions 39: 42.

Alkali (Continued)—

beds of single salts 39: 36.
cereals and alfalfa on alkali land 39: 47.
character of Wyoming alkali 39: 35.
distribution of in the soil of the Laramie Experiment Farm, 10th An. Rpt., 1900.
distribution of salts in the soil 39: 45.
summary of the results of the experiments, 9th An. Rpt., 1899, Alkali Studies III, 40; IV, 28.
Alkali (Continued)—
effect of different salts on the germination of seeds (Continued)—
wheat in 0.1 per cent. solutions, 9th An. Rpt., 1899, Alkali Studies III, 18.
wheat in 0.4 per cent. solutions, 9th An. Rpt., 1899, Alkali Studies III, 19.
wheat in 2.0 per cent. solutions, 9th An. Rept., 1899, Alkali Studies III, 22.
effect of salts on the evaporation of water from soils 39:55.
on corn and wood 18.

Alkali (Continued)—
evaporation of water from pots with alkali salts, 10th An. Rpt., 1900, Alkali Studies V, 14, 16.
excess of sulphates over chlorides in 39:39.
field experiments with 39:45.
germinating experiments with salt solutions of the same osmotic pressures for the different salts, 10th An. Rpt., 1900, Alkali Studies V, 4.
outline of experiment with jars, 7.
outline of experiment with plates, cheese cloths and sand, 4.
tables of results 6, 10, 11.
germination of rye in salt solution 39:55.
Alkali (Continued)—
imbibition of water by seeds from salt solutions, 9th An. Rpt., 1899,
Alkali Studies IV, 7.
clover 8.
corn 16, 17.
rye 8.
various seeds 14.
wheat 8, 9, 10.
wood 16, 17.
in Green River wells 49:122.
lakes and deposits—
chemical composition of deposits 49:105.
danger to stock from 49:107.
described 49:87.
general discussion of 49:80.
history of 49:72.
ocurrence of 49:80.
origin of 49:83.
salts of described 49:106.
Wyoming lakes and deposits—
Bothwell 49:95, 114.
Dillon 49:115.
Gill 49:104, 120.
Independence group 49:98, 117.
Morgan 49:96, 115.
Rankin 49:94.
Rock Creek 49:92, 113.
Union Pacific 49:90, 111.

movement of salts in the soil 39:46.
ocurrence of 49:75.
in soils 49:75.
in sedimentary rocks 49:76.
in spring water 49:77.
origin of deposits of 39:36.
origin of the salts 49:86.

osmotic pressure in salt solutions 39:42.

Alkali (Continued)—
osmotic pressure of salt solutions,
percentage of injurious to cereals and alfalfa 39:47.
percentage of withstood by alfalfa 43:75.
phases of the salts in natural alkali 39:37.
plains 42:28.
reactions and precipitation of salts in natural waters 39:38.
relative injuriousness of the common alkali salts 39:54.
rise of 39:45, 46; 49:75.
salts described 49:78, 106.
source of 39:40; 49:76, 80.
strength of solutions of salts tolerated by crops, 9th An. Rpt., 1899,
Alkali Studies IV, 4.
treatment to prevent the accumulation of 39:46.
variations in the composition of the salts of alkali lakes 39:37.

ALKALI LAKES AND DEPOSITS 49.
Alkali meadow-grass 42:43.

ALKALI STUDIES II 39.

Alnus 40:98.
Alunogen 49:79.
| Ambonychia 45:125. | blocking of 45:188. |
| Andropogon, 10th An. Rpt., 1900, Forage Plants, 12, 31. | flowing wells of Wyoming, the 45:190. |
| Arbor day 40:64. | Ash 40:103. |
| Artesian basins— | Mountain 38:21. |
| Gros Ventre 45:246. | canescens 42:35. |
| overtaxing of 45:189. | expansa 42:37. |
| Uinta 45:245. | Artesian water (Continued)— purity of 45:179. |

**ARTESIAN BASINS OF WYOMING— A PRELIMINARY REPORT ON 45.**

Artesian water—
chemical analyses of from various geological horizons 45:180. for irrigation 45:190.
nature of water from various geological horizons 45:182.
Barley, variety tests of, 10th An. Rpt., 1900.
Bear River stage 45:146.
Beech family 40:99.
Belemnite 45:135.
Belemnites 45:137.
Bellerophon 45:121.
Betulaceae 40:97.
Betula 38:21; 40:97, 98.
Birch 38:21; 40:97.
Paper 40:97.
Western 40:98.
Birch family 40:97.
Bischofite 49:79.
Bloating of cattle and sheep on alfalfa 43:61.
Bokhara clover on alkali ground 39:49.
Borer, Cottonwood, 38:32.

Bridger stage 45:170.
Downey 46:20.
Mountain 46:12.
Quake 46:19.
Richardson's 46:16.
Short-awned 46:11.
Smooth 46:7.
Tweedy's Western 46:10.
Western 46:9.
Wood 46:17.

Brome-Grasses of Wyoming 46.
Brontosaurus 45:140.
Buffalo grass hay, digestible nutrients in, 12th An. Rpt., 1902, 23.
Bulinus 45:165.
Bulrush 42:45.
Tuber 42:45.
Butternut 38:21.
Cacaecia 38:30.
Calamovilfa, 10th An. Rpt., 1900, Forage Plants, 16, 32.
Camptonectes 45:137.
Cardium 45:149.
Carex, 10th An. Rpt., 1900, Forage Plants, 16, 32.
Catalpa 38:19.
Caterpillar, Tent, 38:32.
Cause of the extinction of native forage plants 42:25.
Cedars 38:24; 40:85.

Cement Plaster Industry, the Laramie, 10th An. Rpt., 1900.
chemistry of cement plaster 4.
effect of sand on the crushing strength 9.
geology of the Laramie gyspite deposit 3.
manufacture of cement plaster at Laramie 6.
retarders and accelerators 12.
water in the gypsum earth 7.
Ceraurus 45:125.
Chaetochloa, 10th An. Rpt., 1900, Forage Plants, 16, 32.
Chaetophrerus 38:27.

Charts—
soil moisture 41:18.
Cheat 46:17.
Chenopodiaceae 42:29.
Chenopodium—
album 42:29.
glaucum 42:29.
Chermes 38:28.
Cherry 40:104.
Rocky Mountain Dwarf 38:22.
Western Choke 40:105.
Chess 46:17.
wood 46:17.

Chloris, 10th An. Rpt., 1900, Forage Plants, 16, 32.
Chonetes 45:129.
Choriotetes, 12th An. Rpt., 1902, 42.
Cillicoma 45:163.
Cinnamomum 45:145, 163.
Cinuli 45:159.
Clematis 50:9.
Clisiocampa 38:32.

Clover—
Bokhar a, 10th An. Rpt., 1900, Forage Plants, 6.
Burr or California, 10th An. Rpt., 1900, Forage Plants, 6.
Crimson, 10th An. Rpt., 1900, Forage Plants, 5.

Como stage 45:138.
Cone-bearers 40:72.

Conularia 45:125.
Copper sulphate 48:68.
Corbula 45:153, 165.
Cordiaceras 45:137.

Corn, feeding value of, as compared with wheat, 12th An. Rpt., 1902, 17.
Corrosive sublimate 48:68.

Cottonwood 38:11; 40:91, 92.
Black 38:15.
Broad-leaf 38:14.
Lance-leaf 40:92.
Narrow-leaf 38:15; 40:91.
Rydberg's 38:13.

Cottonwood (Continued)—
Smooth-bark 38:13.
Cow pea, 10th An. Rpt., 1900, Forage Plants, 34.

CRYPTOGAMS OF WYOMING, 10th An. Rpt., 1900.

Cyrtocteras 45:125.
Cryptolites 45:125.

CULTIVATED SHADE AND FOREST TREES 38.

Cuscuta 43:81.
Cyclonema 45:125.
Cyrena 45:149.

Dakota stage 45:143.
Dalea, 10th An. Rpt., 1900, Forage Plants, 16, 32.
Dasylirion, 10th An. Rpt., 1900, Forage Plants, 16, 32.

Dentalinum 45:155.

Desmodium, 10th An. Rpt., 1900, Forage Plants, 17, 34.

Deschampsia, 10th An. Rpt., 1900, Forage Plants, 17, 32.

Dipping—
  sheep for ticks and scab, 12th An. Rpt., 1902, 43.

Dips used for scab, 12th An. Rpt., 1902, 44.

Dodder 43:81.

Drupaceae 40:104.

Duty of water at the Wyoming Experiment Station, 1891-92, 10th An. Rpt., 1900, Water Measurements.

Eatonia, 10th An. Rpt., 1900, Forage Plants, 17, 32.

Effect of tillage on the condition of the soil 41:1.

Elaeagnaceae 40:108.

Eleusine, 10th An. Rpt., 1900, Forage Plants, 17, 32.

Elm, White, 38:20.

Elymus, 10th An. Rpt., 1900, Forage Plants, 17, 18, 30, 32.

Eocene 45:169.

Epsomite 49:79, 106.

Eragrostis, 10th An. Rpt., 1900, Forage Plants, 19, 32.

Eriocoma 42:39.

Erodium, 10th An. Rpt., 1900, Forage Plants, 19, 32.

Eucalyptus 45:163.

Euchlaena, 10th An. Rpt., 1900, Forage Plants, 19, 32.

EVAPORATION, EXPERIMENTS IN, 52.

Evergreens 38:22.

EXPERIMENTS IN EVAPORATION 52.

Experiments in evaporation 52.

conclusions drawn from the experiments 52:48.

REFERENCES 52:45.

EXPERIMENTS IN WHEAT CULTURE 48.

SHEEP FEEDING ON THE RANGE 51.
Sheep feeding on the range, a co-operative experiment in connection with Cosgriff Bros., St. Steele, Wyo., 51:19.
details of the experiment 51:20.
results of the experiment 51:24.
some points of interest about the sheep and range 51:27.
Sheep industry, importance of, 47:30.
Shirley stage 45:135.
Sketch of geological formations of Wyoming 45:111.
Smut, treatment for, 48:68.
Soil—
fertility of 44:93.
of the Laramie Experiment Farm, chemical analyses of, 52:49.
Spergula, 10th An. Rpt., 1900, Forage Plants, 34.
Index Bulletin: C. 31
Subsoiling (Continued)—
effect of on the yield of wheat 41:7.
effect of on the yield of sugar beets 41:12.
experiments in 41:1, 4.
in Wyoming 41:3.
results of experiments in 41:5.
results of with barley 41:9.
results of with corn 41:9.
results of with oats 41:8.
results of with potatoes 41:11.
versus plowing for wheat 48:63.
SUBSOILING, SOME EXPERIMENTS WITH, 41.
Sugar beets—
as stock food 39:50.
on alkali land 39:50.
Stenothea 45:121.
Stock industry of the State 42:23.
change of methods in management 42:23.
Straw—
Subsoiling—
advantages claimed for 41:2.
advisability of 41:19.
cost of 41:19.
effect of on moisture contents of soil 41:13.
effect of on relative increase of straw and grain 41:7.
Spirifera 45:129.
Spruce 40:80.
Engelmann's 38:23; 40:82.
Spurrey, 10th An. Rpt., 1900, Forage Plants, 34.
Stenothea 45:121.
Thenardite 49:78, 106.
Timothy, 10th An. Rpt., 1900, Forage Plants, 8.
Titanotherium 45:172, 173.
Tortulaceae, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 12.
Trametes, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 37.
Tree defined 40:70.

**TREES, CULTIVATED SHADE AND FOREST, 38.**

**TREES OF WYOMING AND HOW TO KNOW THEM 40.**

Trees—
- experiments with 38:10.
- observations on growth of in Wyoming 38:10.
- occurrence of in Wyoming 38:3.
- of Wyoming—
  - common names of 40:68.
  - Latin names of 40:69.
  - planting and care of 38:8.
  - planting of for ornament 38:7.
  - shelter for 38:11.
  - value of for shelter 38:5.
  - winter killing of 38:10.
- Trifolium, 10th An. Rpt., 1900, Forage
  Plants, 5, 6, 29, 33, 34.
- Triplesia 45:121.
- Triticum, 10th An. Rpt., 1900, Forage
  Plants, 29.
- Trona 49:78.
- Turkestan alfalfa 43:70.
- results at Laramie 43:71.

**TURKEYS IN WYOMING, Press Bul. 4: 12th An. Rpt., 1902, 24.**

Tylostoma, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 38.
Ulmus 38:20.
Ulothrichaceae, 10th An. Rpt., 1900,
The Cryptogams of Wyoming, 6.
Ulothrix, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 6.
Umbilicaria, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 24.

Uncinula, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 21.
Unio 45:165.
Urceolaria, 10th An. Rpt., 1900, The
Cryptogams of Wyoming, 25.
Value of alkali plants as forage 42:29.
Vanikoropsis 45:159.

**VARIETY TESTS OF WHEAT, OATS AND BARLEY, 10th An. Rpt., 1900.**

Vaucheriaeceae, 10th An. Rpt., 1900,
The Cryptogams of Wyoming, 5.
Verrucariaeae, 10th An. Rpt., 1900,
The Cryptogams of Wyoming, 27.
Vetch, Hairy or Sand, 10th An. Rpt.,
1900, Forage Plants, 9.
Vicia, 10th An. Rpt., 1900, Forage
Plants, 9, 29, 30.

**VINES—**

introduced—
- Moon-vine 50:15.
- Morning glory 50:14.
- Wild balsam apple 50:13.

native—
- American ivy 50:7.
- River-bank grape 50:11.
- Western clematis 50:9.
- Wild hops 50:12.

**VINES, NATIVE, IN WYOMING HOMES 50.**
Virginia Creeper 50:7.
Vitis 50:11.
Viriparum 45:165.
Volsella 45:159, 165.
Walnut, Black, 38:21.
Wasatch stage 45:169.
Water-bearing zone 45:178.
constitutional provisions 53:97.
construction of headgates and measuring devices 53:114.
partnership ditches 53:107.
procedure relative to the appropriation of water 53:109.
unlawful interference with headgates 53:116.
divisions and division superintendents 53:99.
MEASUREMENTS, 10th An. Rpt., 1900.
Wheat—
culture of, experiments in—after alfalfa 48:64.
inter-tillage versus field culture 48:58, 59.
quantity of seed per acre 48:62.
subsoiling versus plowing 48:63.
treatment for smut 48:68.
variety tests at Laramie 48:53, 54, 56.
variety tests at sub-stations 48:57.
yields of varieties at Laramie 48:57.
Wheat (Continued)—
profit in growing 48:66.
variety test of, 10th An. Rpt., 1900.
Wheat crop of Wyoming, 1891 to 1900, 48:50.
WHEAT CULTURE, EXPERIMENTS IN, 48.
Wheat-grass, Slender, 42:42.
WHEAT, OATS AND BARLEY, VARIETY TESTS OF, 10th An. Rpt., 1900.
Willow 38:16; 40:95.
Almondleaf 40:96.
Bebb 40:96.
Native 38:16.
Osier 38:17.
Russian 38:17.
Western Black 40:96.
Willow family 40:89.
Wood chess 46:17.
Yield of—
oats on alfalfa land 44:104.
potatoes on alfalfa land 44:105.
wheat on alfalfa land 44:104.
Zaphentis 45:129.
