INDEX BULLETIN D
JULY, 1907

Indexing Bulletins Fifty-Four to Seventy-Five
JULY, 1902—JULY, 1907

BY THE SECRETARY

Bulletins will be sent free upon request.
Address: Director Experiment Station, Laramie, Wyoming.
Wyoming Agricultural Experiment Station

UNIVERSITY OF WYOMING
LARAMIE

BOARD OF TRUSTEES.
Hon. OTTO GRAMM, President, Laramie.......................... 1909
Hon. HENRY L. STEVENS, M. D., Laramie.......................... 1909
Hon. HARRIET KNIGHT, A. B., Cheyenne.......................... 1909
Hon. TIMOTHY F. BURKE, LL. B., Vice President, Cheyenne....... 1913
Hon. ARTHUR C. JONES, Treasurer, Laramie........................ 1911
Hon. ELIZABETH ARNOLD STONE, A. B., Evanston.................. 1911
Hon. ALFRED J. MOKLER, Casper..................................... 1913
Hon. GEORGE ABER, Sheridan.................................... 1911
Hon. JOHN F. CRAWFORD, Saratoga.................................. 1913
State Superintendent of Public Instruction-ARCHIBALD D. COOK... Ex-officio
President FREDERICK M. TISDEL, Ph. D........................... Ex-officio
GRACE RAYMOND HEBARD, Ph. D................................................... Secretary

Agricultural Committee of the Board of Trustees.
H. L. STEVENS, Chairman.......................................................... Laramie
OTTO GRAMM........................................................................... Laramie
A. C. JONES............................................................................. Laramie

STATION COUNCIL.
F. M. TISDEL, Ph. D................................................................. President
J. D. TOWAR, M. S................................................................. Director and Agriculturist
A. NELSON, Ph. D................................................................. Botanist and Horticulturist
C. B. RIDGAWAY, A. M.......................................................... Physicist
H. G. KNIGHT, A. M............................................................... Chemist
F. E. HEPNER, M. S............................................................... Assistant Chemist
G. R. HEBARD, A. M., Ph. D.................................................. Secretary and Librarian
H. T. NOWELL, M. S. Irrig. Eng.................................................... Irrigation Engineer
L. B. McWETHY, B. S.............................................................. Agronomist
T. F. McCONNELL........................................................................ Animal Husbandman
J. A. HILL, B. S................................................................. Wool Expert
F. A. SMITH, B. S................................................................. Assistant Chemist and Meteorologist
R. G. HOUTZ........................................................................ Clerk and Stenographer
List of the Bulletins and Annual Reports by the Agricultural Experiment Station, Laramie, Wyoming

May 1, 1891, to July, 1907.

BULLETINS NOS. 1 TO 75
AND
REPORTS NOS. 1 TO 17, INCLUSIVE

INDEXED BY GRACE RAYMOND HEBARD.

*Bulletin No. 4—December, 1891. Meteorology for 1891. B. C. Buffum, Meteorologist.

FIRST ANNUAL REPORT, 1891.
General Statement Regarding Station Work, with Bulletins Nos. 1 to 4, inclusive. D. McLaren, Director.

SECOND ANNUAL REPORT, 1892.
General Statements, with Bulletins Nos. 5 to 10. A. A. Johnson, Director.
*THIRD ANNUAL REPORT, 1893.
Progress of Station Work, with Bulletins Nos. 11 to 16. A. A. Johnson, Director.
*Bulletin No. 18—June, 1894. I. Reclamation of Arid Lands. II. The Harvey Water Motor. A. A. Johnson, Director.
Bulletin No. 19—September, 1894. Squirrel-Tail Grass (Fox-Tail); One of the Stock Pests of Wyoming. Aven Nelson, Botanist.
*FOURTH ANNUAL REPORT, 1894.
Reports from the Departments, and Bulletins Nos. 17 to 20. A. A. Johnson, Director.

*FIFTH ANNUAL REPORT, 1895.*

*SIXTH ANNUAL REPORT, 1896.*
Reports from Departments. Bulletins Nos. 27 to 31, inclusive. Index Bulletin A of the First Twenty-six Bulletins, by Secretary.

*SEVENTH ANNUAL REPORT, 1897.*

EIGHTH ANNUAL REPORT, 1898.

General Outline of Work and Reports from Members of Station Staff, including Bulletins Nos. 34 to 37, inclusive.

NINTH ANNUAL REPORT, 1899.

General Outline of the Work of the Agricultural College, with Departmental Statements. E. E. Smiley, President.

NINTH ANNUAL REPORT, 1899 (Continued)—

Report of the Director of the Experiment Station and of the Members of the Station Staff.

Alkali Studies, III. B. C. Buffum, Agriculturist and Horticulturist.

Alkali Studies, IV. E. E. Slosson, Chemist.

Bulletins Nos. 38 to 40, inclusive, and Index Bulletin B of Bulletins Nos. 27 to 37, inclusive. G. R. Hebard, Secretary.

*Bulletin No. 44—April, 1900. Alfalfa as a Fertilizer. B. C. Buffum, Agriculturist and Horticulturist.

TENTH ANNUAL REPORT, 1900.

General Outline of the Work of the Agricultural College, with Departmental Statements. E. E. Smiley, President.

Report of the Director of the Experiment Station and of the Members of the Station Staff.

Alkali Studies, V. B. C. Buffum, Agriculturist and Horticulturist, and E. E. Slosson, Chemist.

Distribution of Alkali in the Soil of the Experiment Farm. E. E. Slosson, Chemist.

Water Measurement. B. C. Buffum, Agriculturist and Horticulturist.

Germination of Wheat and Oats Treated for Smut.

Forage Plants. B. C. Buffum, Agriculturist and Horticulturist, and W. H. Fairfield, Superintendent of Experiment Farm.

Variety Tests of Wheat, Oats and Barley. B. C. Buffum, Agriculturist and Horticulturist, and W. H. Fairfield, Superintendent of Experiment Farm.

Bulletins Nos. 41 to 45, inclusive.

Bulletin No. 47—April, 1891. Lamb Feeding Experiments. Luther Foster, Agriculturist and Horticulturist.
Index Bulletin D.

*Press Bulletin No. 2 (New Series)—May, 1901. Results of Lamb Feeding at the Wyoming Station. Luther Foster, Agriculturist and Horticulturist.

ELEVENTH ANNUAL REPORT, 1901.

Report of the Director of the Experiment Station and of the Members of the Station Staff.

*Press Bulletin No. 5—1902. What is a Maintenance Ration for a Horse? F. E. Emery, Agriculturist and Horticulturist.

*Press Bulletin No. 6—1902. The Effect of Different Amounts of Water Used in Irrigation Upon the Yield of Potatoes. B. P. Fleming, Irrigation Engineer.

*Bulletin No. 52—April, 1902. Experiment in Evaporation. C. B. Ridgaway, Physicist and Meteorologist.

TWELFTH ANNUAL REPORT, 1902.

Report of the Director of the Experiment Station, including Press Bulletins Nos. 1 to 11 (New Series), inclusive, and Reports of the Members of the Station Staff.

THIRTEENTH ANNUAL REPORT, 1902-3.
Reports of the Director of the Experiment Station and Members of the Station Staff, including five Press Bulletins (New Series), Nos. 12 to 16, inclusive, and outlines of Index Bulletins Nos. 54 to 58, inclusive.

FOURTEENTH ANNUAL REPORT, 1903-4.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 59 to 62, inclusive, and The Ranchman's Reminder.

FIFTEENTH ANNUAL REPORT, 1904-5.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 63 to 66, inclusive; the Fourteenth Annual Report, and The Ranchman's Reminder.

Index Bulletin D.

SIXTEENTH ANNUAL REPORT, 1905-6.

Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 67 to 70, inclusive.

SEVENTEENTH ANNUAL REPORT, 1906-7.

Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 71 to 75, inclusive, The Ranchman's Reminder, and Index Bulletin D.

Annual Reports 1 to 7 are out of print, also all Press Bulletins.

*Out of print.
MONOGRAPHS
Issued From Time to Time by the Experiment Station.

Alkali in Soil at Experiment Farm, *A. R. 10.
Barley, A. R. 10.
Forage Plants, A. R. 10.
Germination of Wheats and Oats Treated for Smut, A. R. 10.
Meteorological Report 1898, A. R. 9; 1899, A. R. 10
Oats, A. R. 10.

*Annual Report.

Index Bulletin B, indexing Bulletins 27 to 37.
Index Bulletin C, indexing Bulletins 38 to 53.
Index Bulletin D, indexing Bulletins 54 to 75.
Press Bulletins 1 to 10.

PRESS BULLETINS
(All Out of Print.)

Alfalfa for Milch Cows, 9, A. R. 12.
Chickens, 8, A. R. 12.
Co-operative Sugar Beet Tests, 5.
Feeding Value of Wheat, 1, A. R. 12.
Horse Maintenance Ration, 5, 10, A. R. 12.
Irrigation of Potatoes, 6, A. R. 12.
Lamb Feeding, 2, A. R. 12.

*Annual Report.

Range Improvement, 7, A. R. 12.
Russian Thistle, **1, A. R. 5.
Sacaline, **3, A. R. 5.
Seed Distribution, **2, A. R. 5.
Sugar Beet Tests, **5, A. R. 7.
Turkeys, 4, A. R. 12.
Water Amounts Used in the Irrigation of Potatoes, 6, A. R. 12.
Wheat Bran for Milch Cows, 9, A. R. 12.
Wheat, Feeding Value of, 1, A. R. 12.

**Old Series.
ALPHABETICAL LIST OF BULLETINS

Issued by the Wyoming Agricultural Experiment Station.

Adulteration of Food, 56, 62.
Alfalfa, 43, 44.
Alkali, 29, 39, 49.
Analysis of Soils, 6.
Arid Lands, 18.
Artesian Wells, 20, 45.
Birds of Wyoming, 55.
Brome Grasses, 46.
Cattle, 13, 30.
Cereals, 22, 27.
Cereal Foods, 33.
Chemical Composition, 58.
Chemistry of Soils, 6.
Climate, 23.
Crops, 11, 17, 22, 58.
Cultivated Shade and Forest Trees, 38.
Digestion Experiments with Wethers, 69.
Duty of Water, 8, 67, 72.
Evaporation, 52.
Exhibits, Preparing of, 58.
Feed and Management of Cattle, 13.
Feeding Experiment with Lambs, 64.
Fence Post Experiments, 75.
Field Pease, 72.
Flora of Wyoming, 28.
Food Adulteration, 56, 62.
Forage Plants, 16, 22, 42, 65, 70.
Fox Tail, 19.
Fruits, 22, 34.
Garden Vegetables, 17.
Geology of Wyoming, 6, 14.
Gophers, 12.
Grasses and Forage Plants, 16, 22, 59.
Growing and Preparing Crops for Exhibition, 58.
Harvey Water Motor, 18.
Insecticides, 7.
Irrigation, 8, 53, 66, 67.
Lamb Feeding, 47, 51, 68, 73.
Life and Preservation of Pitch Pine Fence Posts, 75.
Measurement of Water for Irrigation, 53.
Meteorology, 4, 10, 17, 27.
Mineral Resources of Wyoming, 14.
Native Forage Plants for Alkali Soil, 42.
Native and Introduced Saltbushes, 63.
Native Vines in Wyoming Homes, 50.
Onions, 22.
Organization, 1.
Peas, 26.
Posts, 75.
Potatoes, 22, 32, 71.
Potato Diseases, 71.
Potato Scab, 21.
Preservation of Pitch Pine Fence Posts, 75.
Reclamation of Arid Lands, 18.
Seepage Investigations, 61.
Shade Trees, 38, 57.
Sheep Feeding, 30, 47, 51, 68, 73.
Shrubs, 15, 54.
Smuts on Grains, 21.
Soils of Wyoming, 6.
Squirrel-Tail Grass, 19.
Stock Feeding, 13, 30, 47, 51.
Stooling of Grass, 37.
Subsoiling, 41.
Sugar Beet, 3, 9, 17, 36.
Swine, 74.
Trees, 15, 38, 40.
Turnips, 22.
Vegetables, 17.
Vines, 50.
Water Analysis, 24, 35.
Wethers, 69.
Wheat, 17, 22, 25, 48.
Wheat Grasses of Wyoming, 59.
Wheat Growing on Laramie Plains, 60.
Winter-Killing of Trees and Shrubs, 15.
Wyoming Forage Plants and Their Chemical Composition, 65, 70.
The titles of bulletins are printed in black capital letters. The bulletin numbers appear in black type, larger than the ordinary type in which page numbers are set.

analysis of 65:16.
description of 65:16.
Cowbird 55:111.
Cuckoo, Black-billed, 55:86.
Culture method of raising grain 58:3.
Culture of—mushrooms, 14th An. Rpt., 1904, 57.
wheat 60:26.
Curlew, Long-billed, 55:51.
Currant—
Black 54:16.
Northern Black 54:16.
Purshe's 54:16.
Red 54:16.
Squaw 54:17.
Wild Black 54:16.
Crab-grass, New Mexico, 14th An. Rpt., 1904, 75.
Crane—
Little Brown 55:43.
Sandhill 55:43.
Whooping 55:159.
Cream of tartar, analysis of, 62:54.
Creeper, Rocky Mountain, 55:154.
Crops, experiments, 60:4.
good market for 60:5.
rotation of 60:27.
short season for 60:4.

Crossbill—
Bendire's 55:120.
White-winged 55:120.
Crude fiber—
definition of 69:11.
explanation of term 65:7.
Crude protein—
definition of 69:12.
explanation of term 65:7.
Digestible nutrients for gain with lambs 73:8.
Digestion—
coefficients of 69:10.
definition of 69:13.
alalfa (second cutting), used in, 69:17.
alalfa hay (first cutting), used in, VII and VIII, 69:24.
hay, native, used in, IV, V and VI, 69:32.
practical feeding, used in, 69:3.
reasons for undertaking 69:9.
wethers, used in, 69:14.
process of 69:9.
DIGESTION EXPERIMENTS WITH WETHERS 69.

Dipper 55:150.
Dogwood family 54:32.
Dove, Mourning, 55:58.
Dowitcher, Long-billed, 55:44.
Drop seed, 14th An. Rpt., 1904, 78.
- analysis of 70:32.
- description of 70:32.
Dry forage—
- relation of pea seed to 72:14.
Duck—
- American, Scaup, 55:35.
- Ring-necked 55:35.
Duty of water (see also irrigation)—
- determinations of 66:3.
- comparative values of total crop obtained by use of one cubic foot of water upon various areas for 90 days 67:19.
- effect on yield of oats per acre inch 67:17.
- effect on yield of potatoes per acre inch 67:17.
- explanation of term 66:3.
- on grain crops, 1893-1903, 66:11.
- on mixed crops, 1893-1903, 66:12.
DUTY OF WATER, Bul. 67.
DUTY OF WATER ON FIELD PEASE, Bul. 72.
Dwarf Syringa 54:13.
Eagle—
- Bald 55:71.
- Golden 55:68.
Early blight—
- how recognized 71:16.
- potatoes affected by 70:16.
- source of infection of 71:17.
- structure of 71:16.
- treatment for 71:18.
Early and late sowing, 17th An. Rpt., 1907, 140.
Edwina 54:13.
Enemies, birds as, 55:11.
Enterprise Canal, cost of water for, 66:10.
- measurements of seepage on 66:22.
- seepage measurements 66:22.
- value of land in 66:
- water supply in 66:
Esparcette, 14th An. Rpt., 1904, 80.
Ether, extract, definition of, 69:11.
Experiment Station, legislation pertaining to, 17th An. Rpt., 1907, 22.
Extracts, adulteration of, 62:32.
Falcon, Prairie, 55:73.
False indigo 54:26.
FEEDING EXPERIMENTS WITH LAMBS, 1903-04, 64.
Feeds and gains of lambs 73:5.
Fertilizers for meadows 59:14.
Fence post experiments—
- notes on 75:10.
- preservation of, results of, 75:16.
Fescue, Fall, 14th An. Rpt., 1904, 75.
- King's, 14th An. Rpt., 1904, 75.
- Meadow, 14th An. Rpt., 1904, 76.
Rough—
Field pease, 14th An. Rpt., 1904, 8.
Field peas (Continued)—
conclusions gained from experiments with 72:16.
comparative yield of 72:8.
comparison of depth of water with yield of 72:14.
cost and profit of irrigation 72:13.
depth of water compared with yield of 72:14.
p per second foot in irrigation 72:8.
effect of irrigation on 72:9.
experiments with, plan of, 71:5.
irrigating, season for, 72:7.
nneed of experiments in irrigation of 72:3.
relation of dry forage to 72:14.
time and amount of irrigation of 72:6.
uses of 72:3.
value of 72:3.
yield of 72:8.

Flycatcher (Continued)—
Least 55:102.
Traill's 55:102.
Western 55:102.
Wright 55:103.
Fly-Honeysuckle—
American 54:35.
Blue 54:36.
Involucr 54:35.
Utah 54:36.

**FOOD ADULTERATION IN WYOMING**, Bul. 56.

**FOOD PRODUCTS AND THEIR ADULTERATION**, Bul. 62.

Food products—
number adulterated 62:3.
number analyzed 62:3.
Food value of forage plants 69:9.

Forage plants—
alalfa, analysis of, 65:26; 70:74.
description of 65:26; 70:74.

Baltic rush—
analysis of 65:44.
description of 65:44.

barley meadow—
analysis of 70:42.
description of 70:42.

Bent-grass, Canada—
analysis of 70:21.
description of 70:21.

Blue-grass, Nevada—
analysis of 70:52.
description of 70:52.

Brome-grass, Fringed—
analysis of 65:28.
description of 65:28.

of, 75:3, 5, 7, 9, 11, 13, 15.
Preservation of 75:3, 5, 7, 9, 11, 13, 15.
Fescue, King's, 70:41.
Field Pease, 17th An. Rpt., 1907, 133.
Crop of, 6 cuts, 72:12.
Dry Forage, Comparative Yield
of, 72:8.
Lamb Feeding on 73:3.
Illustrations (Continued)—
Field Pease (Continued)—
Pulled and Raked Over, 17th An. Rpt., 1907, 139.
View of Plat I Showing 72:5.
Flicker, Red- Shafted, 55:95.
Flouring Wheat 60:17.
Forage Plants, Hair-Grass, Tufted, 65:35.
Fox-Tail, Marsh, 70:23.
Godwit, Marbled, 55:46.
First Primary of 55:29.
Goose, Snow, Beak of, 55:38.
Grains, Laramie, 60:3.
Gramma-Grass 70:27.
Grape River Bank 54:30.
Grass, Slender Wheat, 59:3, 8, 17.
Tested at Experiment Farm, 1901-03, 14th An. Rpt., 1904, 68.
Great Blue Heron, Beak of, 55:38.
Western 55:6.
Western Evening 55:118.
Gull, Beak of, 55:38.
Hair-Grass, Rough, 70:17.
Tufted 70:55.
Harness Attachment for Digestion Experiment with Wethers 70:19.
Hawk, American Sparrow, 55:78.
Hedysarum, Woodland, 70:68; 65:41.
Heron, Great Blue, Beak of, 55:38.
Night 55:38.
High Bush Cranberry 54:34.
Holodiscus, Dumossus, 54:19.

Illustrations (Continued)—
Pinion 55:111.
Slate-Colored 55:131.
June-Grass, Prairie, 70:45.
Juniper, 5 cuts, 54:5.
King-bird, Arkansas, 55:98.
Cassin's 55:98.

Lambs—
Alfalfa, Corn, Oil and Meal Fed, 14th An. Rpt., 34.
Saddle of 68:8.
Beginning of Feeding Experiment with 64:2.
Carcasses Used in Experiments with 68:9.
Close of Feeding Experiment, 1903-04, 64:2.
Fed Alfalfa, Turnips, Corn and Oil Meal 64:10.
Illustrations (Continued)—

Lambs (Continued)—

Feeding Experiment Begun, 1903-04, 64:2.
Ended, 1903-04, 64:2.
Field Pease Eaten by 73:3.
Lot 2 73:3; Lot 4 73:3; Lot 8 73:8; Lot 6 73:3; Lot 10 73:10; Lot 12 73:12; Lot 14 73:7.
Marketing of Not Begun 73:7.
Overfeeding Results in Loss of Wool 64:10.
Shedding of Wool from Overfeed 64:10; 14th An. Rpt., 1904, 34.
Shrop, Carcus of, 68:17 (5 cuts of different lots).
Killed for Slaughter Tests 68: 16 (6 cuts of different lots).
Sick from Eating Alfalfa 68:18.
Turned on Field Pease, 14th An. Rpt., 1904, 33.
Laramie Street 57:1.
Lark, Desert Horned, 55:102.
Late Blight, Fungus in Relation to Leaf Showing, 71:23.
Last Stage of 71:19.
Leaf in Early Stage of 71:19.
Leucosticle, Gray Crowned, 55:121, 135.

Illustrations (Continued)—

Life and Preservation of Pitch Pine Fence Posts, Cuts Pertaining to, 75:3, 5, 7, 9, 11, 13, 15.
Long-Billed Dowitcher 55:47.
Long Spur, Chestnut Colored, 55:121.
Louisiana Tanager 55:47.
Macaroni Wheat 60:32.
Manna 70:35.
Grass, Nerved, 70:37.
Meadow-Grass, Reed, 70:34.
Marbled Godwit 55:46.
Meadow-Grass Alkali 65:31.
Merganser, Americanus, 55:22.
Beak of 55:38.
Millet, Indian, Head of, 65:43, 18.
Myiarchus, Cunerascens, 55:99.
Night Heron, Beak of, 55:38.
Ninebark (Opulaster Monogynus) 54:18.
Nuteracker, Clark's, 55:111.
Nuthatch, Pygmy, 55:158.
Oriole, Bullock's, 55:110.
Owl, Burrowing, 55:87.
Short-Eared 55:79.
Pease, Field of, in 1903, 14th An. Rpt., 1904, 84.
White 55:23.
Pepit, Sprague's, 55:151.
Pitch Pine Fence Posts, Preservation of, cuts, 75:3, 5, 7, 9, 11, 13, 15.
