Publication Information

This Full Issue is brought to you for free and open access by the Agricultural Experiment Station at Wyoming Scholars Repository. It has been accepted for inclusion in Wyoming Agricultural Experiment Station Bulletins by an authorized administrator of Wyoming Scholars Repository. For more information, please contact scholcom@uwyo.edu.
INDEX BULLETIN I

JULY, 1941

Indexing Bulletins Two-Hundred Eighteen to Two-Hundred Forty-Seven, Inclusive, and Annual Reports Nos. Forty-Six to Fifty, Inclusive.

Bulletins will be sent free upon request.
Address. Director of Experiment Station, Laramie, Wyoming.
UNIVERSITY OF WYOMING
Agricultural Experiment Station

BOARD OF TRUSTEES

Officers:
RALPH S. LINN.............President
HARRIETT T. GRIEVE.......Vice President
V. J. FACINELLI.............Treasurer
FAY E. SMITH..............Comptroller and Secretary

Executive Committee:
PETER SILL
HARRIETT T. GRIEVE
VICTOR J. FACINELLI

Appointed Members
1925 HARRIETT T. GRIEVE
1937 VICTOR J. FACINELLI
1939 RALPH S. LINN
1939 FRANK A. BARRETT
1939 PETER SILL
1939 MILWARD L. SIMPSON
1941 BARD FERRALL
1941 HAROLD M. JOHNSON
1941 MARY EDELMAN COPE

NELS H. SMITH, Governor of Wyoming
ESTHER L. ANDERSON, State Superintendent of Public Instruction

STATION STAFF

Administration:
J. A. HILL, B.S., Dean of College of Agriculture; Director of Station.
W. L. QUAYLE, B.S., Director Experiment Farms.
MARGARET LAMB, B.S., Station Clerk.

Agronomy and Agricultural Economics:
A. F. VASS, Ph.D., Agronomist.
T. J. DUNNEWALD, M.S., Assoc. Soil Investigations.
G. H. STARR, Ph.D., Assoc. Agronomist; Plant Pathologist.
W. A. RIEDEL, M.S., Asst. Agronomist.
EDWARD J. TALBOT, M.S., Asst. Economist.
DELWIN M. STEVENS, B.S., Asst. Economist.
ROBERT LANG, B.S., Asst. Agronomist.
ROBERT F. ESLICK, B.S., Asst. Agronomist.
JOHN F. CYKLER, B.S., Asst. Agricultural Engineer.

Animal Production:
FREDRIC S. HULTZ, Ph.D., Animal Husbandman, Beef Cattle, Sheep.

Apiculture and Entomology:
*A. P. STURTEVANT, Ph.D., Apiculturist, in Charge U. S. Bee Culture Field Station.
*A. W. WOODROW, Ph.D., Asst. Apiculturist.
*E. C. HOLST, Ph.D., Asst. Bacteriologist.
*J. D. HITCHCOCK, M.A., Junior Apiculturist.

*In cooperation with U. S. Department of Agriculture.

Botany:
AVEN NELSON, Ph.D., Botanist and Horticulturist.

Chemistry:
O. A. BEATH, M.A., Research Chemist.
O. C. McCREARY, Ph.D., Assoc. Research Chemist.
H. F. EPPSON, M.S., Assoc. Chemist.
WILLIAM B. BRADLEY, Ph.D., Asst. Pharmacologist.

Home Economics:
ELIZABETH J. McKITTRICK, M.S., Home Economics.
EMMA J. THIESSEN, M.A., Asst. Home Economics.

Library:
MARY E. MARKS, Ph.B., Librarian.

Veterinary Science and Bacteriology:
*MARY E. TURNER, Ph.D., Technician.

Weather:
FRANK E. HEPNER, M.S., Head of Weather Station.

Wool:
J. A. HILL, B.S., Wool Specialist.
ROBERT H. BURNS, Ph.D., Wool Specialist.
ALEXANDER JOHNSTON, M.S., Asst. Wool Specialist.

Zoology:
JOHN W. SCOTT, Ph.D., Zoologist and Parasitologist.
RALPH HONESS, M.A., Asst. Research Zoologist.

†On leave.
LIST OF PUBLICATIONS
OF THE
WYOMING AGRICULTURAL EXPERIMENT STATION
AND STATE FARMS
Index to Bulletins Nos. 218 to 247, inclusive, and Annual Reports
46 to 50, inclusive.

BY
MARGARET LAMB

LIST OF ALL BULLETINS AND
ANNUAL REPORTS

*Bulletin No. 1.—May, 1891. The Organization and Proposed Work of
the Station. D. McLaren.

*Bulletin No. 3.—November, 1891. The Sugar Beet in Wyoming. D.
McLaren and E. E. Slosson.

*Bulletin No. 4.—December, 1891. Meteorology for 1891. B. C. Buffum.

*FIRST ANNUAL REPORT, 1891. D. McLaren.
General Statement regarding Station Work, with Bulletins Nos. 1
to 4, inclusive.

*Bulletin No. 5.—February, 1892. Best Varieties and Breeds for Wy­

*Bulletin No. 6.—May, 1892. Soils of the Agricultural Experiment Farms.
Relations of Geology and Chemistry to Agriculture.
J. D. Conley. Analyses of the Soils of the Experiment
Farms. E. E. Slosson.

*Bulletin No. 8.—October, 1892. Irrigation and Duty of Water. B. C.
Buffum.

*Bulletin No. 9.—December, 1892. Sugar Beets in 1892. E. E. Slosson.

*Bulletin No. 10.—December, 1892. Meteorology for 1892. B. C. Buffum.

*SECOND ANNUAL REPORT, 1892. A. A. Johnson.
General Statements, with Bulletins Nos. 5 to 10.

and F. J. Niswander.

*Bulletin No. 12.—April, 1893. Ground Squirrels (Gophers). F. J. Nis­
wander.

W. A. Henry, University of Wisconsin. (Reprint
by permission.)

*Out of print.

*THIRD ANNUAL REPORT, 1893. A. A. Johnson.

Progress of Station Work, with Bulletins Nos. 11 to 16.

*Bulletin No. 18.—June, 1894. I. Reclamation of Arid Lands. II. The Harvey Water Motor. A. A. Johnson.

*Bulletin No. 19.—September, 1894. Squirrel-Tail Grass (Fox-Tail); One of the Stock Pests of Wyoming. Aven Nelson.

*Bulletin No. 20.—October, 1894. The Artesian Wells of Southern Wyoming. J. D. Conley.

*FOURTH ANNUAL REPORT, 1894. A. A. Johnson.

Reports from the Departments, with Bulletins Nos. 17 to 20.

*Bulletin No. 23.—May, 1895. Notes on Climate. J. D. Conley.

*FIFTH ANNUAL REPORT, 1895. A. A. Johnson.

Including Bulletins Nos. 22 to 26, inclusive; also, three Press Bulletins: 1, The Russian Thistle, Aven Nelson; 2, Seed Distribution, A. A. Johnson; 3, Sacaline, B. C. Buffum.

*Bulletin No. 27.—March, 1896. Meteorology for 1895, and Notes on Climate from 1891 to 1896. J. D. Conley.

*Out of print.
Index Bulletin I

*Bulletin No. 32.—March, 1897. Potatoes. B. C. Buffum.

*EIGHTH ANNUAL REPORT, 1898. F. P. Graves. General Outline of Work and Reports from Members of Station Staff, including Bulletins Nos. 34 to 37, inclusive.

Report of the Director of the Experiment Station and of the Members of the Station Staff.

Alkali Studies, III. B. C. Buffum.

Alkali Studies, IV. E. E. Slosson.

Bulletins Nos. 38 to 40, inclusive, and Index Bulletin B of Bulletins Nos. 27 to 37, inclusive.

*Bulletin No. 43.—March, 1900. Alfalfa as a Hay Crop. B. C. Buffum.

*Bulletin No. 44.—April, 1900. Alfalfa as a Fertilizer. B. C. Buffum.

*Out of print.
TENTH ANNUAL REPORT, 1900. E. E. Smiley.
General Outline of the Work of the Agricultural College, with Departmental Statements.
Report of the Director of the Experiment Station and of the Members of the Station Staff.
Alkali Studies, V. B. C. Buffum and E. E. Slosson.
Distribution of Alkali in the Soil of the Experiment Farm. E. E. Slosson.
Water Measurements. B. C. Buffum.
Germination of Wheat and Oats Treated for Smut.
Bulletins Nos. 41 to 45, inclusive.

Bulletin No. 47.—April, 1901. Lamb Feeding Experiments. Luther Foster.

ELEVENTH ANNUAL REPORT, 1901. E. E. Smiley.
Report of the Director of the Experiment Station and of the Members of the Station Staff, and Summaries of Bulletins 46 to 49, inclusive.

Bulletin No. 51.—May, 1902. I. Sheep Feeding on the Range. II. Lamb Feeding—Second Trial. F. E. Emery.
Bulletin No. 52.—April, 1902. Experiment in Evaporation. C. B. Ridgaway.

TWELFTH ANNUAL REPORT, 1902. E. E. Smiley.
Report of the Director of the Experiment Station, including Press Bulletins Nos. 1 to 11 (New Series), inclusive, and Reports of the Members of the Station Staff and Summaries of Bulletins 50 to 53, inclusive.

*Out of print.
Index Bulletin I

*THIRTEENTH ANNUAL REPORT, 1902-3. B. C. Buffum.
Reports of the Director of the Experiment Station and Members of the Station Staff, including five Press Bulletins (New Series), Nos. 12 to 16, inclusive, and outlines of Index Bulletins C and Bulletins Nos. 54 to 58, inclusive.

*FOURTEENTH ANNUAL REPORT, 1903-4. B. C. Buffum.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 59 to 62, inclusive, and The Ranchman’s Reminder.

*FIFTEENTH ANNUAL REPORT, 1904-5. B. C. Buffum.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 63 to 66, inclusive; the Fourteenth Annual Report, and The Ranchman’s Reminder.

*Bulletin No. 70.—May, 1906. Wyoming Forage Plants and their Chemical Composition—Studies No. II. H. G. Knight and A. Nelson.

*SIXTEENTH ANNUAL REPORT, 1905-6. B. C. Buffum.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 67 to 70, inclusive.

*Out of print.
Wyoming Agricultural Experiment Station

*Bulletin No. 73.—April, 1907. Ration Experiments with Lambs. G. E. Morton.

*SEVENTEENTH ANNUAL REPORT, 1906-7. B. C. Buffum.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins Nos. 71 to 75, inclusive, The Ranchman's Reminder, and Index Bulletin D.

*Bulletin No. 76.—March, 1908. Wyoming Forage Plants and their Chemical Composition—Studies No. III. H. G. Knight, Frank E. Hepner, and Aven Nelson.

*EIGHTEENTH ANNUAL REPORT, 1907-8. J. D. Towar.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Outlines of the Seventeenth Annual Report, Bulletins 75 to 78, Index Bulletin D, and The Ranchman's Reminder.

*NINETEENTH ANNUAL REPORT, 1908-9. J. D. Towar.
Report of the Director of the Experiment Station and Members of the Station Staff, including Outlines of Bulletins 79 to 82.

TWENTIETH ANNUAL REPORT, 1909-10. J. D. Towar.
Reports of the Director of the Experiment Station and Members of the Station Staff.

*Bulletin No. 87.—February, 1911. Wyoming Forage Plants and Their Chemical Composition—Studies No. IV. Henry G. Knight, Frank E. Hepner, and Aven Nelson.

*Out of print.
**Index Bulletin I**

**TWENTY-FIRST ANNUAL REPORT, 1910-11. H. G. Knight.**

Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 86 to 88, and as a supplement, Studies on the Strength and Elasticity of the Wool Fiber, No. I. The Probable Error of the Mean, by J. A. Hill, Wool Specialist.

*Bulletin No. 90.—September, 1911. Reclamation by Drainage. An Example of Reclamation from Seepage and Alkali by Means of Leaching and Drainage. J. C. Fitterer.*

*Bulletin No. 91.—December, 1911. The Relation of the Sheep-Tick Flagellate (Crithidia melophagia) to the Sheep's Blood. Leroy D. Swingle.*

**TWENTY-SECOND ANNUAL REPORT, 1911-12. H. G. Knight.**

Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 90 to 93, and Press Bulletins 1 to 4 in full.

*Bulletin No. 95.—September, 1912. I. A Comparison of Cotswold and Southdown Grade Lambs. II. Fattening Rations for Aged Ewes. A. D. Faville.*

*Bulletin No. 96.—October, 1912. Ration Experiments with Swine. I. (a) Rape vs. Pea Pasture for Fattening Pigs; (b) Alfalfa Meal vs. Middlings as Corn Supplement. II. (a) Rape vs. Pea Pasture for Brood Sows; (b) Alfalfa Hay for Brood Sows. A. D. Faville.*

*Bulletin No. 98.—April, 1913. Alfalfa Hay for Horses. A. D. Faville.*

**TWENTY-THIRD ANNUAL REPORT, 1912-13. H. G. Knight.**

Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 95 to 98, and Press Bulletins 5 to 12 in full.

*Bulletin No. 100.—September, 1913. Meteorology for Twenty Years. H. G. Knight and J. C. Fitterer.*

*Out of print.*
TWELVE-FOURTH ANNUAL REPORT, 1913-1914. H. G. Knight.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 99 to 102, and Press Bulletin 13 in full, a Paper on the Transmission of Swamp Fever, by J. W. Scott, and the Meteorological Summary.

Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 103 to 105 and Index Bulletin E, and Three Special Articles—A Progress Report on Sarcocystis Tenella, by John W. Scott; Branding Paints, by A. D. Faville; One Instance of the Occurrence of Tuberculosis Among Wyoming Cattle and Its Significance, by O. L. Prien, and the Meteorological Summary.

Reports of the Director of the Experiment Station and Members of the Station Staff, including summaries of Bulletins 106 to 109, and the Meteorological Summary.
Index Bulletin I

Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 110 to 113, and Three Special Articles—Cut Worms, How Can They be Controlled? by J. W. Scott; Alkali and Weathering Studies with Wool, by J. I. Hardy; Permanent Pastures and Meadows, by T. S. Parsons, and the Meteorological Summary.

Reports of the Director of the Experiment Station and Members of the Station Staff, including Summaries of Bulletins 114 to 117, Two Special Articles—A Progress Report on Sarcocystis Tenella. II. Seasonal Infection, by J. W. Scott; Wyoming Forage Plants and Their Chemical Composition, Studies No. 5, by F. E. Hepner, and the Meteorological Summary.

*Bulletin No. 120.—June, 1919. The Chemical Examinations of Three Species of Larkspurs. O. A. Beath.

TWENTY-NINTH ANNUAL REPORT, 1918-1919. A. D. Faville.
Reports of the Director of the Experiment Station and Members of the Station Staff, including a special report on “The Effects of Some of the Most Common Sheep Dips on Wool,” by J. I. Hardy, and the Meteorological Summary.

*Bulletin No. 125.—June, 1920. Chemical Examination of the Silvery Lupine. O. A. Beath.

*Out of print.
THIRTIETH ANNUAL REPORT, 1919-1920. A. D. Faville.
Reports of the Director of the Experiment Station and Members of the Station Staff, including Summary of Bulletin No. 117, Financial Statement of the Treasurer, and the Meteorological Report.

Report of the Director of the Experiment Station and Members of the Station Staff, including Financial Statement of the Treasurer and the Meteorological Report.

THIRTY-SECOND ANNUAL REPORT, 1921-1922. J. A. Hill.
Reports of the Acting Director of the Experiment Station and Members of the Station Staff, including Financial Report of the Treasurer and the Meteorological Report.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 135 to 136, Financial Report of the Treasurer, and the Meteorological Report.

*Out of print.
Index Bulletin I

THIRTY-FOURTH ANNUAL REPORT, 1923-1924. J. A. Hill.

*Bulletin No. 143.—June, 1925. Chemical Examination of Three Delphiniums. O. A. Beath.

THIRTY-FIFTH ANNUAL REPORT, 1924-1925. J. A. Hill.
Reports of the Director of the Experiment Station, including Summaries of Bulletins 140 to 143, Financial Report of the Treasurer, and the Meteorological Report.

*Bulletin No. 144.—December, 1925. Lupine Studies II—The Silvery Lupine. O. A. Beath.

*Bulletin No. 146.—June, 1926. Wyoming Forage Plants and Their Chemical Composition—Studies No. 7. E. N. Roberts.

THIRTY-SIXTH ANNUAL REPORT, 1925-1926. J. A. Hill.
Reports of the Director of the Experiment Station, beginning work under the Purnell fund, including Summary of Bulletins 144 to 147, Financial Report of the Treasurer, and the Meteorological Report.

*Bulletin No. 149.—January, 1927. Feeding and Housing for Laying Hens W. L. Quayle.

THIRTY-SEVENTH ANNUAL REPORT, 1926-1927. J. A. Hill.
Reports of the Director of the Experiment Station, including Summaries of Bulletins 147 to 155, Financial Report of the Treasurer, and the Meteorological Report.

*Out of print.

*Bulletin No. 158.—April, 1928. The Use of Calcium Cyanide in the Apiary. C. L. Corkins.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 156 to 159, Financial Report of the Treasurer, and the Meteorological Report.

Bulletin No. 163.—March, 1929. Results with Tree Planting at the Sheridan Field Station. R. S. Towle.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 160 to 166, Financial Report of the Treasurer, and the Meteorological Report.

FORTIETH ANNUAL REPORT, 1929-1930. J. A. Hill.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 167 to 172, Financial Report of the Treasurer, and the Meteorological Report.

*Out of print.
Index Bulletin I

FORTY-FIRST ANNUAL REPORT, 1930-1931. J. A. Hill.
Reports of the Director of the Experiment Station, including Summaries of Bulletins 171, 173 to 180, Financial Report of the Treasurer, and the Meteorological Report.

*Bulletin No. 184.—August, 1931. Wyoming Forage Plants and Their Chemical Composition, Studies No. 9. O. C. McCreary.

*Bulletin No. 188.—April, 1932. Studies with Hampshire Sheep, No. II. Fred S. Hultz and J. A. Gorman.

Index Bulletin G.—Indexing Bulletins Nos. 122 to 187, inclusive, Annual Reports 30 to 41, inclusive, Circulars Nos. 16 to 25, inclusive, State Farms Bulletins 1 to 7, inclusive.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 183 to 189, Financial Report of the Treasurer, and the Meteorological Report.

*Out of print.
Wyoming Agricultural Experiment Station

FORTY-THIRD ANNUAL REPORT, 1932-1933. J. A. Hill.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 190 to 198, Financial Report of the Treasurer, and the Meteorological Summary

FORTY-FOURTH ANNUAL REPORT, 1933-1934. J. A. Hill.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 199-201, Financial Report of the Treasurer, and the Meteorological Summary.

*Out of print.
Reports of the Director of the Experiment Station, including Summaries of Bulletins 202-206, Financial Report of the Treasurer, and the Meteorological Summary.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 207-217, Financial Report of the Treasurer, and the Meteorological Summary.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 218-222, Financial Report of the Treasurer, and the Meteorological Summary.

*Out of print.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 223-227, Financial Report of the Treasurer, and the Meteorological Summary.

Reports of the Director of the Experiment Station, including Summaries of Bulletins 228-233, Financial Report of the Treasurer, and the Meteorological Summary.

FIFTIETH ANNUAL REPORT, 1939-1940. J. A. Hill.
Reports of the Director of the Experiment Station, including Summaries of Bulletins 234-238, Financial Report of the Treasurer, and the Meteorological Summary.

*Out of print.
Index Bulletin I

Bulletin No. 240.—July, 1940. Salinity Conditions in the Big Horn River During the Years 1938 and 1939. T. J. Dunnewald.

Bulletin No. 243.—January, 1941. Practical Results from the State Experiment Farms. W. L. Quayle.

Bulletin No. 244.—February, 1941 Bacterial Ring-Rot of Potatoes. G. H. Starr and W. A. Riedl.

Bulletin No. 245.—April, 1941. Sulphur Dusting for the Control of Psyllid Yellows of Potatoes. W. A. Riedl.

First Series

No.
1. Russian Thistle.
2. Seed Distribution.
3. Sacaline.

Second Series

No.
1. Feeding Value of Wheat.
10. Maintenance Ration for Driving Horse.
11. External Parasites of Sheep.
14. To the Grocers, Druggists, and Saloonkeepers of Wyoming.
15. How to Prevent Smut in Grain.
16. Potato Disease and Treatment of Seed.

Third Series

Issued Since January, 1912

No.
1. Flockmasters, Warning! Shun the Woody Aster Patches.
7. Treatment of Loose and Stinking Smut.
2. Suggestions to Potato Growers on Irrigated Lands.
8. Formaldehyde Treatment for Grain and Potatoes.
3. Alfalfa Leaf Weevil.
9. Importance of Proper Seed.
4. Watch Your Potatoes.
5. Pasture Crops for Pigs.
11. Extermination of Prairie Dogs and Gophers.
6. Preparation of Lands for First Crops.
12. State and County Fairs.
13. Plant Enemies.

*Nos. 1, 2, and 3 appear in the 5th, and No. 5 in the 7th Annual Reports of the Station. No record can be found of a No. 4 in this series.
†The first eleven of this series appear in the 12th, and the rest in the 13th Annual Reports of the Station.
‡Nos. 1, 2, 3, and 4 appear in the 22nd, Nos. 5, 6, 7, 8, 9, 10, 11, and 12 in the 23rd, and No. 13 in the 24th Annual Reports of the Station. While all the Press Bulletins themselves are out of print, the Annual Reports containing some of them are still available for distribution.

Circular No. 4, published 1897, "Sugar Beet Experiments," by E. E. Slosson, may have been Press Bulletin No. 4, First Series, because there is no record of Press Bulletin No. 4 being published during that year.
CIRCULARS†

No.
*15. Legume Inoculation.

STATE FARM BULLETINS

No.

*Out of print.
†Circulars begin with No. 13 following the Press Bulletin series. Through an oversight, numbering started with 13 instead of 14. Circular No. 1, "Directions for Selecting Seed, Planting, Cultivating and Caring for the Potato Crop," by T. S. Parsons, was published in 1918. The numbering of this circular seems to bear no relationship to either the Press Bulletin or Circular series above.
‡Published as Experiment Station Bulletin No. 148.

Date of seeding, A. R. 49: 30, 35.
Feeding, (see feeding livestock).
Manure doubles yields, B. 243: 12.
Index Bulletin I

Basement complex, intrusion and metamorphic rocks comprising, B. 221: 7-9.

Beans, B. 219: 43.
- Dry, B. 228: 65.

Bean Straw for Fattening Lambs, B. 247.

Beath, O. A.
- Seleniferous vegetation of Wyoming, B. 221: 29ff.

Beath, O. A., Eppson, H. F., and Bradley, W. B.
- Livestock poisoning by oat hay and other plants containing nitrate, B. 241.

Beath, O. A., Eppson, H. F., Gilbert, C. S., and Bradley, W. B.
- Poisonous plants and livestock poisoning, B. 231.

Beef cattle, B. 228: 70-72.
- Feeding, (see feeding livestock).

Bees,

Beets, (see sugar beets).

Bentonite, B. 221: 40.

Bighead of sheep, B. 231: 98.

Big Horn Basin
- Eastern slope, B. 228: 121-126.
- Irrigated districts, B. 228: 159-165.
- Range sheep and cattle in, B. 228: 98-103.

Big Horn River
- Salinity condition during the years, 1938-1939, B. 240; A. R. 49: 10.
- Blue stem, B. 224: 18.
- Borraginaceae, B. 229: 42.
- Bradley, W. B., Beath, O. A., and Eppson, H. F.
- Livestock poisoning by oat hay and other plants containing nitrate, B. 241.

Bradley, W. B., Beath, O. A., Eppson, H. F., and Gilbert, C. S.
- Poisonous plants and livestock poisoning, B. 231.
- Brassicaceae, B. 229: 36-37.
Burns, Robert H.

Variation in shrinkage of Wyoming wools. I. Differences between duplicate samples, B. 225.

Cactaceae, B. 229: 39.
Calcium and phosphorus, B. 231: 101-102.
For beef cattle, A. R. 46: 8.
In Wyoming plants, A. R. 46: 11.
Camas, death, B. 231: 33-37.
Capparidaceae, B. 229: 37.
Carbon bands and carbonaceous shales, B. 221: 38-40.
Carex stenophylla, B. 229: 20.
Caryophyllaceae, B. 229: 36.
Cash-grain farms, B. 228: 79-80.
Cattle

Beef, B. 228: 70-72.
Progeny testing of, A. R. 50: 12.
Shelter for, A. R. 50: 30.
Cellar wintering of bees, B. 234.
Construction of cellars, B. 234: 5-10.
Results, B. 234: 10-18.
Cenozoic era, sedimentary rock systems of, B. 221: 22-27.
Cereals

Seleniferous cereals, grasses and foodstuffs, B. 221: 34.
Spring, B. 219: 28.
Ceresan treatment, B. 224: 10.
Chemical treatment for white top, B. 219: 16-17.
Chenopodiaceae, B. 229: 25-26, 33-36.
Chickens (see poultry).
Chokecherry leaves, B. 231: 99.
Chrysothamnus, B. 229: 14-17, 25.

Climate
Campbell County, B. 223: 3.
Wyoming, B. 228: 29-35.

Cockleburs, B. 231: 97.
Commercial honey production and the two-queen hive, B. 239.
Concretions, limonitic, B. 221: 37.
Conservation, soil, B. 228: 53-54.
Consumption of feed by hens, B. 230: 8-11.

Cooking

Convert a poor crop into cash, B. 243: 11.
Equipment and plats used, B. 223: 4.
Falconer is dependable, B. 243: 16.
Hybrid corn, B. 236: 3-4; B. 243: 35-36; A. R. 50: 4-5.
Hybrid corn adaptation trials in Wyoming, B. 236; B. 246.
In widely spaced rows, B. 223: 9-10.
Production on the Campbell County farm, B. 223.
Rotation of, B. 219: 11, 12.
Seed beds for, B. 223: 6-7.
Soil for, B. 223: 3-4.

Cornaceae, B. 229: 40.
Corriedale sheep breeding, A. R. 50: 11-12.
Cottonseed cake, B. 227: 16-17; B. 243: 37.

Cottonwoods
Broadleaf trees are adapted to Eden Valley, B. 243: 14.

Acreage harvested, 1929, B. 228: 57-58.
Crop-specialty farms, B. 228: 78.
Date of seeding spring, B. 219: 28-29.
Effect of tillage on yields, B. 219: 10-11.
Hay, B. 228: 68-69.
Land in farm crops, 1929, B. 228: 56-57.
Rotation of, B. 219: 42-43.
Croquettes, frying, B. 235: 7-11.
Cultural methods for winter wheat on non-irrigated lands in northeastern Wyoming, B. 218.

—D—
Dairy cattle, B. 219: 25; B. 228: 72-73; B. 237.
Feeding (see feeding livestock).
Milk production by the university herd, A. R. 47: 16-17.
Dairy farms, B. 228: 80-81.

Ranunculaceae, B. 229: 36.
Rations (see feeding livestock).

Red Desert, vegetative composition, density, carrying capacity, and grazing land values in, B. 229.

Riedl, William A.
Hybrid corn adaptation trials in Wyoming in 1939, B. 236.
Riedl, William A.
Sulphur dusting for the control of psyllid yellows of potatoes, B. 245.
Riedl, William A., and Quayle, W. L.
Hybrid corn adaptation trials in Wyoming, 1940, B. 246.
Riedl, W. A., and Starr, G. H.
Bacterial ring-rot of potatoes, B. 244.

Ring-rot of potatoes, bacterial, B. 244.

Rocks and soils of Wyoming and their relation to selenium problem, B. 221.
Availability of selenium in seleniferous rocks, B. 221: 48.
Character and extent of soil mantle, B. 221: 6-7.
Intrusive and metamorphic rocks comprising the basement complex, B. 221: 7-9.
Phosphate, B. 221: 41.
Rock groups and nomenclature, B. 221: 4-5.
Rocks and their residual soils, B. 221: 36-37.
Sedimentary rocks, B. 221: 9-27.

Rodents and predatory animals, B. 228: 47.
Rosaceae, B. 229: 37-38.

Roughage feeding of dairy cattle, B. 237.
Russian thistles, B. 243: 19.

Rye
Pasturing, B. 243: 11-12.

—S—

Salt burden discharge, B. 240: 7-9; A. R. 50: 8.
Sampling stations, B. 240: 4-6.
Saltbush, Nuttall’s, B. 231: 90-91.
Saltpeter (see nitrates and poisonous plants).
Salt requirements, B. 231: 9-10.
Salvia lanceolata, B. 231: 100.

Sandstones
  Ferruginous, B. 221: 41.
  Limey, B. 221: 41.

Sarcobatus vermiculatus, B. 229: 14, 26.
Scrophulariaceae, B. 229: 42-43.
Sedges, B. 229: 28.

Sedimentary rock systems, B. 221: 9-27.

Seed beds
For corn, B. 223: 6-7.
For wheat, B. 218: 6-9; B. 224: 7-8.

Availability, B. 221: 48, 56-57.
Basal Thermopolis shales, B. 221: 56-57.
Experimental approaches, B. 221: 43-47.
Inorganic compounds, B. 221: 49-50.
Morrison shale selenized with sodium selenite, B. 221: 51.
Natural occurrences of, B. 221: 35-42.
Organic compounds, B. 221: 51-53.
Rocks and soils of Wyoming and their relation to, B. 221: 3-27.
Seleniferous vegetation, B. 221: 30-34, 54-55, 57-61.
Sulphur antagonism, B. 221: 34-35.

Senecios, B. 231: 97.

Shales
Basal Thermopolis, B. 221: 56-57.
Carbonaceous shales and carbon bands, B. 221: 38-40.
Morrison, B. 221: 51.
Sheep

Australian merinos crossed with rambouillet, A. R. 50: 27.

Bean straw for fattening lambs, B. 247.

Big head of, B. 231: 98.

Breeding corriedale, A. R. 50: 11-12.

Feeding (see feeding livestock).

Pasturing, B. 219: 26, 43.

Production, B. 228: 69-70.

Silages, phosphorus in, B. 233: 18.

Skim milk replaces grain in pork production, B. 243: 24-25.

Sneezeweed, B. 231: 99.

Sodium selenite, Morrison shales selenized with, B. 221: 51.

Soils

Agronomy farm, B. 224: 26-27.

And rocks of Wyoming, B. 221: 3-27, 36-37; B. 228: 37-40.

Campbell county farm, B. 223: 3-4; A. R. 47: 7-8.

Conservation, B. 228: 53-54.

Fertility, A. R. 50: 34, 38.

Nitrate content in, B. 241: 18.

Selenium compounds in, B. 221: 3-27, 49-53.

Treatment for the control of scab and rhizoctonia, B. 222: 43-44.

Wheat, B. 218: 4; B. 221: 54-55.

Solidagos, B. 231: 96-97.

Sorghums for forage, B. 231: 100; B. 243: 29, 36.

Sorgo, B. 219: 30.
Soybeans
   For forage, B. 243: 29-30, 36.

Spraying potatoes.
   Cost of, B. 220: 19-21.
   Date of planting and spray test, B. 220: 30-31.
   For purple top, B. 219: 37.

Stanchions of the modern barn compared with open shed for milk cows,
   B. 219: 5.
Stanleya, B. 221: 30, 57; B. 231: 92-93.

Starr, G. H.
   Field experiments on bunt of wheat, B. 226.
   Potato seed treatment studies in Wyoming, 1932-1936, B. 222.

Starr, G. H., and Riedl, W. A.
   Bacterial ring-rot of potatoes, B. 244.

State experiment farms reports, B. 219; B. 243; A. R. 46: 18-29; A. R.

Stem wilt of potatoes, B. 219: 36-37.

Stock farms and ranches, B. 228: 77-78.

Stickleya, B. 231: 100.

Sudan grass, B. 231: 100; B. 243: 34-35.

Sugar beets, B. 227; B. 228: 63-64.
   Beet tops in rations for steers, B. 227.
   Plowing for, B. 219: 44; B. 243: 32-33,
   Spacing, B. 219: 44.

Sulphur antagonism, B. 221: 34-35.

Sulphur dusting for the control of psyllid yellows of potatoes, B. 245.

Sweetclover
   In rotation, B. 243: 39.
   Poisoning by, B. 231: 99.
   Time to plant, B. 243: 10.

Sweetwater County
   Grazing capacity of, B. 229: 55-61.

Swine (see hogs).
Tapeworms

Temperature
    And pressure cookers, A. R. 48: 22.
    Relation to psyllid injury, B. 220: 13-16.
Tetradyinia, B. 229: 25; B. 231: 98.
Thermopolis basal shales and selenium availability, B. 221: 56-57.
Thiessen, Emma J.
    Deep fat frying at high altitudes, B. 235.
    Making white and whole wheat bread with three types of yeast and
    hard wheat flour, B. 242.
Thistles, Russian, B. 243: 19.
Thompson, Paul K.
    Corn production on the Campbell County Experiment Farm, B. 223.
    Cultural methods for winter wheat on non-irrigated lands in north-
    eastern Wyoming, B. 218.
Tillage, effect on crop yields, B. 219: 10-11.
Timber milk vetch, B. 231: 76-80.
Toxic minerals in plants, B. 231: 16-95.
Toxicity due to potassium nitrate, B. 241: 8-9.
Transportation in Wyoming, B. 228: 49.
Tree distribution under the Clarke-McNary Law cooperative with Lander,
    Apple trees respond to fertilization, B. 243: 19-21.
    Broadleaf cottonwood are adapted to Eden Valley, B. 243: 14.
Turkeys, (see poultry).
Two-grooved milk vetch, B. 231: 73-75.
Two-queen hive and commercial honey production, B. 239.

University dairy herd, milk production by, A. R. 47: 16-17.
Vaccination

Variation in the shrinkage of Wyoming wools, B. 225.

Vass, A. F., Hunter, Byron, and Pearson, H. W.
- Type of farming and ranching areas in Wyoming, B. 228.

Vass, A. F., and Lang, Robert
- Vegetative composition, density, grazing capacity and grazing land values in the Red Desert area, B. 229.

Vegetation
- Seleniferous, B. 221.
- Red Desert area, B. 229.

Vetches (see also Astragalus)
- Gray's, B. 231: 88-89.
- Narrow-leaved milk, B. 231: 84-85.
- Timber milk, B. 231: 76-80.
- Two-grooved, B. 231: 73-75.

Violaceae, B. 229: 39.

Vitamin supplements for laying hens, B. 219: 34.

Water for irrigation, B. 228: 54; B. 243: 41.

- Control of, B. 219: 16.
- Seleniferous, B. 221: 30-33.

Wheat
- Bread baking with different types of, B. 242; A. R. 47: 26-27.
- Grass, B. 229: 27.
- In rotation, B. 219: 10-13; B. 224: 6-7.
- Seleniferous, B. 221: 54-55.
White top, chemical treatment for, B. 219: 16.
Wild hay, B. 228: 67-68.
Willard, H. S.
    Roughage feeding of dairy cattle, B. 237.
Wilt
    Resistance of alfalfa, B. 219: 34-35.
    Stem wilt of potatoes, B. 219: 36-37.
Woody aster, B. 231: 81-83.
Wool
    Sampling, B. 225: 5-23.
    Scouring, A. R. 47: 30.
Wyoming agriculture
    Factors affecting, B. 228: 26-50.
    Geography of, B. 228: 56-84.
    Historical background, B. 228: 13-25.
    Major problems of, B. 228: 50-55.
    Type of farming areas, B. 228: 5-13, 84-180.
Wyoming, sedimentary rocks of, B. 221: 9-27.

—X—

Xylophiza Parryi (woody aster), B. 221: 30, 31, 52-53; B. 231: 81-83.

—Y—

Yeast
    Fermentative values of, B. 242: 12-15.

—Z—

ACKNOWLEDGMENT

The author is greatly indebted to Miss Helen Luers, a student in the University of Wyoming, whose conscientious and careful compilation of the material made the publication of this bulletin possible.
The following publications of the Wyoming Experiment Station may be had upon request: (Revised list, January, 1941).

ANNUAL REPORTS—
19th to 50th, inclusive (1908-9 to 1939-40, inclusive, except 21st and 22nd.)

INDEX BULLETINS—
E, G, and H.

No. STATE FARMS BULLETINS—

No. CIRCULARS—

No. BULLETINS—
112. The Poisonous Properties of the Two-Grooved Milk Vetch (*Astragalus bisulcatus*).
116. Winter Grains.
163. Results with Tree Planting at the Sheridan Field Station.
185. Barley Tests at the Sheridan Field Station.
205. Economic Studies of Irrigated Farms in Big Horn County.
209. Forty Years of Weather Records.
212. Steer Feeding in Southeastern Wyoming.
216. Sugar Beet By-Products for Fattening Lambs.
220. Study of Psyllid Yellows in Wyoming.
221. Occurrence of Selenium and Seleniferous Vegetation in Wyoming.
223. Corn Production on the Campbell County Experiment Farm.
227. Sugar Beet Tops, Cottonseed Cake and Mono-Calcium Phosphate in Rations for Steers.
228. Type of Farming and Ranching Areas in Wyoming.
